

DATE: April 3, 2013

Greetings from Aroostook County.....

Well the season has ended excepting some back country riding but remember it is private land so check and make sure you should be there first.....

So this will be the last report for the 2012-2013 season which was really an odd one. We had snow, then we lost snow, then we had snow but it was driven by 50 mph winds, then we lost snow, then we had snow.....when all was said and done the snow belt around the Katahdin region and the Ft Kent-Eagle Lake-Allagash regions had the longest runs while everyone in between worked hard to keep trails in good shape.

Again, thank you to the hundreds of landowners across The County for allowing us the privilege to ride and thank you to those volunteers who climb into the trail groomers and work their magic and help keep The County one of the best places to ride in North America.
